

## Business & Commercialization Innovation Centre

From initial market research to commercialization strategies, the Business & Commercialization Innovation Centre offers a full suite of solutions to make businesses more successful, including **market research, business strategies, go-to-market and growth strategies, primary research, media execution, promotional plans, and brand development.**

## Food & Beverage Innovation Centre

The Food & Beverage Innovation Centre (FBIC) offers a full suite of services to support industry innovation and commercialization of new products and processes. **From food & beverage recipe and concept development to shelf-life testing, prototyping, and small batch processing,** the FBIC works with industry to meet their needs.

## Horticultural & Environmental Sciences Innovation Centre

The Horticultural & Environmental Sciences Innovation Centre specializes in performing growth trials with horticultural crops that evaluate innovations and improvements. We have extensive experience in innovations that are close to commercialization. Our expertise includes **assessing technologies, production practices, packaging, media and pots, pest and disease control approaches and more.**

## Walker Advanced Manufacturing Innovation Centre

The Walker Advanced Manufacturing Innovation Centre team specializes in engineering design, 3D technologies, lean manufacturing processes and additive manufacturing. We work with businesses to bring ideas to life, from concept through to **developing working prototypes, utilizing leading-edge technology, including equipment and software.**

# Niagara College Canada

## Research & Innovation provides Solutions for Industry

Niagara College's Research & Innovation division provides real-world solutions for businesses, key industry sectors and the community through applied research and knowledge transfer activities.

We conduct projects that provide innovative solutions, such as producing and testing prototypes, evaluating new technologies, and developing new or improved products or processes for small- and medium-sized businesses.

With funding support from various regional, provincial and federal agencies, students and graduates are hired to work alongside faculty and staff researchers to assist industry partners in meeting their applied research and innovation needs.

## Contact our team today.

Together, we will determine how best to meet your needs, whether we perform a quick turnaround service, or a full innovation project. Projects last anywhere from a few days to a few months, depending on scope and industry partner needs.
